City Club So Charges at Hearing Before Commissioner Ingraham.

RULED FROM THE RECORD

Assistant District Attorney in Pitcairn. The women welcomed the arrival of bright calicoses and other raiment, as they still have the hereditary feminine love of finery.

The apring fashions of Pitcairn are also those of summer, autumn and win-

The hearing of the City Club's charges gainst District Attorney Swann, which resumed yesterday before George L. Ingraham, sitting as commissioner in the County Courts Building, grew somewhat tense late in the day, when Chase Mellen, counsel for the City Club, ttempted to show that witnesses w testify against Mr. Swann are prevented from obtaining employment by the ac-tion of labor union officials. The principal basis of the charge

gainst Mr. Swann's administration is that labor leaders indicted for assault and even murder were permitted to go free after indictment without proper effort to put them on trial. The conten-tion of Mr. Mellen yesterday was that as soon as a man testifies against Mr. rann or his assistants at this hearing he is discharged by his employer at the behest of labor men and prevented from

"CHRISTMAS SHIP" AT PITCAIRN BANKERS PLEDGE Returned Sailor Tells of the Por

Hardy's Arrival. Joseph Parker, able seaman of the British steamship Port Hardy, which sailed hence on January 4 for lonely Pitcairn Island by way of the Panama Canal, is back in this city. He brings the first information of the arrival there of the "Christmas ship" laden with good

things for the Pitcairn natives, plous folk descended from mutineers of the ship Bounty and Tahltian women.

Parker found the natives unaffected by the high cost of living and rather uninterested in the world war. Nobody drinks intoxicants or smokes or chews drinks intoxicants or smokes or chew

also those of summer, autumn and ter, and the younger folks wear just plain smiles all the year round. The soil has merely to be tickled to yield palatable things, and much of the foodstuffs

STEEL MEN CONFER

Tonnage to Be Divided Among Manufacturers According to Their Capacity.

Two score of the most prominent steel manufacturers in the United States held a conference yesterday at the offices of the United States Steel Corporation

or war purposes. According to one man who attended the conference inquiries from the Gov-ernment so far indicate that it will need between 2 and 3 per cent, of the total between 2 and 3 per cent, of the total output of the country. The total output of the country. The total output of steel last year was approximately 41,420,000 tons, so 3 per cent. We are here not in the capacity of mately 41,420,000 tons, so 3 per cent. We are here not in the capacity of mately 41,420,000 tons. However, the would be 1,242,600 tons. However, the gressives. We are inspired by one high gressives.

that the tonnage should be divided among the manufacturers according to their capacity. A price of 2.9 cents a their capacity. A price of 2.9 cents a pound for plates and 2.5 cents a pound for structural shapes agreed to between the steel manufacturers and the Gov ernment was also approved. Standard plates are now being quoted in the open market at 8 cents a pound.

Sub-committees were appointed to "Do you think that is a proper thing handle the work. That on alloys con-to do? Do you not think that is grossly sists of E. H. Gary, ex officio; James A. sists of E. H. Gary, ex officio; James A. Farrell, E. G. Grace and E. A. S. Clarke. Orders will be distributed according to capacity by a committee made up of E. H. Gary, ex officio; James A. Farrell, J. A. Topping and F. A. S. Clarke. The office to be established at Wash-

ington by the steel manufacturers to cooperate with the Government will be in charge of James B. Bouner, general manager of the Philadelphia office of the Carnegie Steel Company. Judge Gary was chairman at yester-

WILSON SUPPORT

and Universal Service

Passed Unanimously.

sanship Vanishes Before Love of Country.

It is not often that one hears in this country a body of staid and dignified men prominent in the affairs of New York and the nation wildly and enthusiastically singing the national song of another country. But that happened down in the Bankers Club yesterday when a meeting of the club to indorse the stand of President Wilson was urned into a France Day celebration, and big business men rose to their feet

and sang the "Marsellinise." round of cheers.

Inspired by Love for Nation.

The meeting was called primarily to alling upon Congress to declare war on Germany and to indorse universal trainng and promise the Administration the undivided support of the club. In sup-porting the resolution Mr. Straus said: "We are here not in the capacity of whom Juan Kunpel, Gonzales's German full requirements of the Government and lofty sentiment, and lofty sentiment, and her institutions and her institutions are grateful that the President "We are grateful that the President are grateful that history will pre-

in a state paper that history will pre-serve beside the Declaration of Indein a state paper that history will preserve beside the Declarations of Inde-pendence has made it clear to the whole world that America has under the stress of circumstances broken through her old

Flags of Allies Cheered.

A burst of applause followed Mr. Straus's speech and the resolutions were put through unanimously. Then George T. Wilson, vice-president of the club, who was acting in behalf of A. Barton Hepburn, who was ill, turned the meeting into a Lafayette and France cele-bration. He pointed to where behind him on the wall the Stars and Stripes pleaded guilty to perjury in so testifying.

BROOKLYN

Bate-Built Cars

and 25th Street.

Mitchell cars are built under John W. Bate, the great efficiency engineer. They are built in a factory which he designed and equipped. In a plant on which he spent millions of dollars to produce a fine

car economically. They embody 700 improvements which he has worked out. They are built to his standard of 100 per cent over-strength in every vital part.

They are Unique

They are unique in the margins of safety which make them lifetime cars. They have 31 features which nearly all cars omit. These extras cost us on this year's output about \$4,000,000.

They are unique in their beauty and luxury. We spend at least onefourth more than other like-class cars on finish, upholstery and trimming.

For 200,000 Miles

These cars are built for 200,000 miles of service, which makes them lifetime cars. Yet all this extra value costs you no extra price. No comparable cars are sold so low. The reason lies in our factory savings. Mr. Bate's efficiency methods have cut our factory cost in two. Even the

date methods.
